## PROFESSIONAL SUMMARY

Software Developer with 2+ years of experience in enterprise application development. Currently specializing in Frontend Engineering.

Skilled in JavaScript and React, supported by a strong background in Laravel, NestJS, and MySQL. Seeking opportunities in global teams to deliver innovative tech solutions.

## WORK EXPERIENCE

### System Analyst

**PT. Hartono Istana Teknologi (Polytron), Kudus, Indonesia**

**March 2026 - Present**

- Gathered and translated requirements for 5+ application enhancement and development projects
- Analyzed business processes and proposed solutions that reduced manual workflows by up to 30%
- Produced technical specifications, system flows, and documentation to guide development teams
- Collaborated with business stakeholders and development teams to ensure on-time delivery of system implementations

### Application Developer

**PT. Hartono Istana Teknologi (Polytron), Kudus, Indonesia**

**June 2024 - March 2026**

- Developed and maintained ERP modules supporting Finance, HR, Payroll, and Cashier operations used across multiple departments
- Built and integrated 20+ RESTful APIs for web applications and internal systems
- Improved application performance by optimizing database queries and refactoring legacy processes by 50%
- Implemented queue-based background jobs for report generation, notifications, and system automation to increase business process by 30%

### Application Developer Internship

**March 2023 - March 2024**

**PT. Hartono Istana Teknologi (Polytron), Kudus, Indonesia**

- Developed RESTful APIs and CRUD modules for ERP system enhancements
- Assisted in feature development, bug fixing, and production issue investigation
- Collaborated with developers to deliver and maintain internal business applications

## PORTOFOLIO

### Kingdom of Glory Application

- Tech Stack: NestJS (Backend), Next.js (Web), React Native (Mobile)
- Contributed to frontend bug fixing and feature enhancements for web (Next.js) and mobile (React Native) applications while leading backend API development and database design.
- Outcome: A live application used by church members for seat booking, reading devotionals, and viewing service schedules.
- Website : <https://kingdomofglory.church>

### GKMI Anugerah

- Tech Stack: Laravel, MySQL
- Contribution: Responsible for database design and REST API endpoint development to manage church event, media, and content data.
- Outcome: A stable backend supporting the church website in managing various activities and digital content.
- Website : <https://gkmi-anugerah.org>

## SKILL

|            |                                                                                              |
|------------|----------------------------------------------------------------------------------------------|
| Soft Skill | Responsible, Problem-solving, Adaptability, Fast Learner                                     |
| Hard Skill | React, Next.JS, JavaScript, TypeScript, HTML, CSS, PHP, GIT, Laravel, Node.js, NestJS, MySQL |

## CERTIFICATION

---

- Secure Code Corporate Training, Cyber Academy Indonesia, Nomor: SC02107253097, 2025
- Belajar Dasar Pemrograman JavaScript, Dicoding, Nomor: GRX5JGN5KX0M, 2025
- Certification of Mentoring Program by Binus SASC, Binus, 2022
- Python Fundamental for Data Science, DQLab, Nomor: DQLABINTP1KGBKFU, 2021
- Fundamental SQL using SELECT Statement, DQLab, Nomor: DQLABSQTL1JWUDQB, 2021
