GIOVANNI JOSE RICARDO

Frontend Developer | Software Engineer
giovanni.jricardo@gmail.com | +62 85935290965
https://www.linkedin.com/in/giovanni-jose-ricardo | https://github.com/epicfame

PROFESSIONAL SUMMARY

Software engineer with 3+ years of experience (including internship) in full-stack development on ERP systems, building REST APIs, SQL databases, and background jobs. Now focusing into frontend engineering: building CashierLess and contributing to Landezy with React, Next.js, and TypeScript, and completing a frontend bootcamp. Based in Indonesia (UTC+7), open to remote roles.

SKILLS

- **Frontend:** React, Next.js, TypeScript, JavaScript, HTML, CSS
- **Backend:** Node.js, NestJS, Laravel, PHP, REST APIs
- **Database:** PostgreSQL, Supabase, MySQL
- **Tools:** Git, Vercel

PROJECTS

CashierLess: Full-Stack Developer | Sep 2026 - Present

cashierless.vercel.app

- QR-based ordering platform for restaurants and cafes: merchants manage tables and menus, customers scan a table QR code to browse and order.
- Building merchant dashboards and customer ordering interfaces with Next.js, React, and TypeScript.
- Designed the PostgreSQL schema on Supabase and integrated object storage for menu images; checkout flow ready for payment gateway integration.

Tech: Next.js, React, TypeScript, PostgreSQL, Supabase, Object Storage

Landezy: Frontend Engineer | Jul 2026 - Present

landezy.com

- Property marketplace built with Next.js, React, and TypeScript.
- Built responsive, reusable UI components for property listing and management workflows.
- Integrated REST APIs, authentication, and frontend state management with a cross-functional team.

Tech: Next.js, React, TypeScript, REST APIs

Kingdom of Glory: Backend Lead, Frontend Contributor | Mar 2025 - Jun 2025

kingdomofglory.church

- Led backend API development and database design for a live app used by church members for seat booking, devotionals, and service schedules.
- Fixed bugs and shipped feature enhancements across the Next.js web app and React Native mobile app.

Tech: Next.js, React Native, NestJS

GKMI Anugerah: Backend Developer | Jun 2025 - Aug 2025

gkmi-anugerah.org

- Designed the database and built REST API endpoints managing church events, media, and content for the church website.

Tech: Laravel, MySQL

WORK EXPERIENCE

PT. Hartono Istana Teknologi (Polytron), Kudus, Indonesia | Mar 2023 - Present

Tech: Laravel, MySQL, PHP

Application Developer | Sep 2026 - Present

- Develop and maintain ERP modules for Finance, HR, and Payroll; integrate REST APIs and resolve defects.
- Improve performance and maintainability through code and database optimization.

System Analyst | Mar 2026 - Sep 2026

- Gathered and translated requirements for 10+ enhancement and development projects.
- Analyzed business processes and proposed solutions that reduced manual workflows by up to 30%.
- Wrote technical specifications, system flows, and documentation for development teams.
- Worked with business stakeholders and developers to deliver implementations on time.

Application Developer | Jun 2024 - Mar 2026

- Developed and maintained ERP modules for Finance, HR, and Payroll, used across multiple departments.
- Built and integrated 20+ RESTful APIs for web applications and internal systems.
- Reduced processing time by 50% through database query optimization, legacy refactoring, and multithreading for asynchronous processes.
- Implemented queue-based background jobs for report generation, notifications, and automation, improving process throughput by 30%.

Application Developer Intern | Mar 2023 - Mar 2024

- Developed RESTful APIs and CRUD modules for ERP enhancements.
- Built and maintained a Fixed Asset Management System, reducing manual asset tracking and improving transaction accuracy.
- Supported feature development, bug fixing, and production issue investigation alongside system analysts.

CERTIFICATION

- Secure Code Corporate Training, Cyber Academy Indonesia, Certification ID: SC02107253097, 2025
- Belajar Dasar Pemrograman JavaScript, Dicoding, Certification ID: GRX5JGN5KX0M, 2025

EDUCATION

Binus University Alam Sutera **Sep 2020 - Apr 2024**

Bachelor's Degree in *Computer Science* | GPA: 3.85 / 4.00

KodingUp Bootcamp

Frontend Development | 2026 (In progress, expected completion 12/2026)
